PRINCIPAL'S DESK

It has been rightly said that Autumn leaves don't fall, they fly. They take their time and wander on this their only chance to soar. With this reference the students have shown their interest in activities of the school and they have risen in the participation. I think that the students have enjoyed autumn break with happiness. Now its time to go back to study. Best wishes.

Editor's Desk

DABHI KAUSHIKKUMAR
(TGT-ENGLISH)

It's a matter of great pleasure for me to publish the second edition of the school Digital Magazine. The students have participated in many activities with zeal and tempo. The activities which are conducted in the school was as per the demand of the time and festivals of the area. Moreover, the activities were also conducted according to schedule of KVS. The students are very enthusiastic and active in participation. The team KV Dhrangadhra will try to bring the best from the students.

HOW I SPENT MY AUTUMN BREAK?

I would like to share with you all, how I spent my Autumn Break. My Autumn Break was of 10 days. As it is Autumn Season, My Family and I went to Nashik, Maharashtra, where we visited The Trambakeshwar Temple as well as The Panchvati. After 2 to 3 days we came back to Gujarat. On the 5th day of my holiday I started my H.W. [Holiday Homework]. It was Navratri, so, I went to go to play garba. I learned many recipes from my mother. I read one book "Goosebumps" during the periods 2-3 days. As my Boards-Exam are approaching my mom taught me in these days. The last day of my holiday, I was very happy to go to school again.

How did I have spent My Autumn Break

I would like to share my experience of this Autumn Break. Autumn Break was for 10 days 26 oct to 30 oct.

During these 10 days holidays I spent my time wisely and enjoyed also. I prepared a time table for my study so that I can finish my rest of the syllabus during this break. As we came Gujarat for the first time we planned to explore the beautiful places of Gujarat. We also planned to go to Ahmedabad for shopping for the family function and Diwali.

My father booked the ticket for Ahmedabad and also for Diwali to go to Jaipur. I started my holiday-home work after 3 days and with the help of time table I studied 5 hours in a day and completed my holiday homework in 2 to 3 days.

We went to Dwarka and found that the place was so peaceful and beautiful. We went to the temple Dwarka dhish which was filled with positive energy. After two days we came back and I finished my rest of the work and ~~prey~~ prepared for the school. At night I wrote my whole experience in the Diary.

THE BREAKS OF AUTUMN

So as we know that this autumn break are part of last 5 days of Navaratri. So I didn't have perfect routine for 3 to 4 days because late night garba & late wake up. But when Navaratri is over my routine starts as usual. In these days I complete my holiday homework & I have a passion to learn new international languages. So I learn their basic languages. I started revising the subjects. Festival of lights come after the nights of garba. We clean whole house for Diwali. This is how I spend my breaks.

GOLDEN OPPORTUNITY

As we know these days are named as holidays, but we have the golden opportunity to utilise the proper use of time. Firstly, I completed the Holiday Work in first two days. Apart from this, I tried to complete my most of the syllabus, specially Maths & Science. But it doesn't mean that I not focused on others. I also gave the time to theory based subjects (Hindi, English, SST). Also I had spent my time to mental, physical activities (playing, going for daily walks). Apart from this, I also helped my mom in household work. As we all know that Diwali is nearby about of few days.

I would also like to add, in the cleaning, it also included colouring, flooring etc. At last, but not the least, during these days, I gave my most of time, also to my family, by spending hours.

This way, I spend my holidays.

Our autumn break had began on 5th day of Navratri. Just before autumn break we had celebrate Navratri in school. Now break started and for 2 days. I just chilled and my made a schedule for whole Vacation. then on 3rd day I started my studies did 5 chapter of Maths and little part of the english and maths new chapter start. and little part cover of english and Hindi Grammar in the whole Vacation. and I also started my holiday homework Just before 3 days, but beside studies I also had enjoyed a lot, I had went to my hometown for puja. I played Garba in my society. I had went to Ice station, Luxara and Garden with my two besties Tiya and Neha. Just for enjoyment I was not able to complete my whole schedule and that's why I became so sad, I talked to my friend on call she tells me to calm down she helped me to relax and after Vacation she helped me taught me everything which I missed in school. I had decided to complete so much but still I was not able to. this is how I spent my holidays enjoying and studying. this Vacation had lasts for 10 days.

●●● My feelings about autumn break ●●●

The autumn break was from 30 october to 29 october. In these days I have traveled so much that, travelling has been my favourite thing to do. I have been to my hometown in Andhra Pradesh and I felt so much relieved, grateful and amazed to visit my hometown again after a very long period. These 10 days became my favourite and adventurous days of my life.

Apart from this, being in a school, I had to do the holiday homework also, which was a bit difficult because beside I was travelling also. Once I reached my village. The fresh breeze, the farms, the mountains and the river welcomed me with a fresh and bright natural music, like - birds chirping, dry leaves falling from the trees, the sound of river beds, and many more natural sounds. I was feeling that the world's greatest happiness was in me.

I met my grandparents, my bestfriends at my villages, my relatives, my cousins after a long time. I was overwhelmed with excitement when I heard that we are going to visit a picnic spot with my whole family. That was the first time, we all gathered to go to a picnic.

Lastly, when it was time to come back, I was a little bit sad, but the happiness I got from my village and family will be everlasting in my heart until I die.

My Autumn Break My Experience

In Autumn Break, My Experience was so exciting. When Autumn Break started, my favourite festival Navaratri was also going on. So, I was excited to play garba in Navaratri. I had gone to my Nani's house because my Uncle bought a new house. My Uncle organized there very beautiful function. Nearby, there is a funfair, so, we go there and enjoy there. Then, we go for shopping. I bought some new clothes for upcoming festival. When we came back from my uncle's house there was last day of Navaratri. And we enjoy last day of Navaratri and last day of Navaratri was my favourite. At last day of Navaratri I got 2nd Rank for the well dressed. And then all day-night I complete my homework.

Thank You!

My Experience of "AUTUMN BREAK"

From 20th of October our school had declared our favourite autumn Break which was full of joy, enjoyment and learning new things from new innovation and ideas for me. On first day I played volleyball with my friends. Daily I read 4-5 pages of a book to improve my reading, And daily I did my holiday homework together with my friends.

Then After 5 days of vacation, I went to my uncle's home which was in a village, there we played sorts of games and enjoyed a lot. There I came close to the nature and Our Ancient Culture.

After coming back I learned to make a working model on biodiversity. I learned many new things from this time which was a great opportunity for me.
Thank you.

Khadi for Nation
Khadi for fashion

Khadi is a special type of cloth that is Hand-Spun and Hand-Woven. It is made from cotton and sometimes it may also include silk or wool. This cloth is not just a piece of fabric but it holds a deep meaning in the history of India. Khadi played a vital role in India's struggle for freedom.

The father of our nation Mahatma Gandhi introduced Khadi as a symbol of self-reliance and self-governance. He encouraged people to spin their cloth and boycott foreign goods. Khadi is still a symbol of national pride and self-reliance. It provides jobs to weavers who hand spin the cloth. Khadi became a political symbol during the struggle for independence. Khadi also brought economic opportunities to rural communities.

The Khadi and Village Industries Commission (KVIC) a government organization has been instrumental in promoting Khadi

Khadi Mahotsav Essay Writing Competition.

MY IDEA ABOUT HANDLOOMS/HANDICRAFTS..

Handlooms and handicrafts hold a special place in the rich tapestry of our cultural heritage. They represent centuries of tradition, artistry, and the skilled craftsmanship of our ancestors. In today's fast-paced world, it is crucial to preserve and promote these age-old practices.

Handlooms and Handicrafts are integral parts of our diverse culture. They reflect the essence of different regions, capturing the unique traditions, stories and beliefs of our society. So By Supporting and Promoting these crafts, we ensure the preservation of our cultural heritage for future generations. Each handicraft represents a tale of our past and connects us from our roots.

Do you know that every year on 7th August International Handloom Day is celebrated. It is celebrated on the day Swadeshi movement was launched in 1905. The Indian handloom industry is one of the most oldest and largest cottage industries in India. And From 8th Dec to 14th Dec, every year, we celebrate All India Handicrafts week.

But, Behind every piece of handloom fabric or handicraft item, there is an artisan pouring their skills, creativity and love. These artisans are essential for the survival of these crafts. Providing them with fair wages, better working conditions and access to markets can significantly enhance their livelihoods. Through skill development programs and financial support, we can encourage more people to take up these traditional crafts, ensuring a continuous flow of talent. And they also deserve this things, and they are valuable to any society as they preserve traditional knowledge and techniques.
